# MCA Testing

Reading and mathematics MCA tests are administered in grades 3–8 and high school (students in grade 10 take the Reading MCA, and students in grade 11 take the Mathematics MCA). The Science MCA is administered to students in grades 5 and 8 and in the high school grade when students take a life science or biology course.

The MCA measures student performance on the Minnesota Academic Standards:

- The Reading MCA is aligned to the 2010 academic standards.
- The Mathematics MCA is aligned to the 2007 academic standards.
- The Science MCA is aligned to the 2009 academic standards.

# MCA Testing

## Testing Windows for MCA

- Math & Reading - March 4th-May 3rd
- Science - March 4th - May 10th

Two class periods are given for students to complete testing. More time is given if needed.

New Heights School will receive an individual student report for your child and will provide this information to you. This report shows your child's overall score in each subject, as well as scores for specific skill areas within each subject. It includes information about achievement level, comparisons to various groups, and comparisons to the student's performance in past years, when applicable.

School and district results are available in the [Minnesota Report Card on the MDE website](#).

# FAST Testing

- FAST testing in both Math & Reading will be administered 3 times during the school year - fall, winter and spring to all students in grades K-12.
- FAST results are communicated to students at school within the testing window and can be communicated to families upon request.
- Students are given one class period to complete each test. More time is given if needed.
